

CURRENT WORK ON CSS AT W3C

Bert Bos (W3C) <bert@w3.org>[↑]

Web Standards Days,[↑]
24 November 2012,
Moscow

AGENDA

This talk:

1. About W3C *& me*
2. About CSS
3. Examples of current work

PART I

Part I – About W3C

WHERE I WORK

W3C (World Wide Web Consortium) is a **Standards Organization** organized as a **Consortium**

Its standards are called **W3C Recommendations**

They are made by **Working Groups**

HTML, CSS,
SVG, RDF, PNG,
MathML, XML,
WCAG, EXI...

Founded 1994

W3C STRUCTURE

- Team ← *me*

Director: Tim Berners-Lee

- Offices
- Members
- Public

W3C TEAM

■ 73

■ Hosts

- France – Sophia-Antipolis (ERCIM) ← *me* 43.6145°
7.0695°↑
- USA – Cambridge, MA (MIT)
- Japan – Tokyo (Keio Univ.)

■ ... and colleagues all over the world

■ Technical, administrative/management, systems support

W3C MEMBERS

- ± 380
- Companies
 - computer, telecom, documents, finance, healthcare...
- Universities
- Research laboratories
- Government departments
- ...

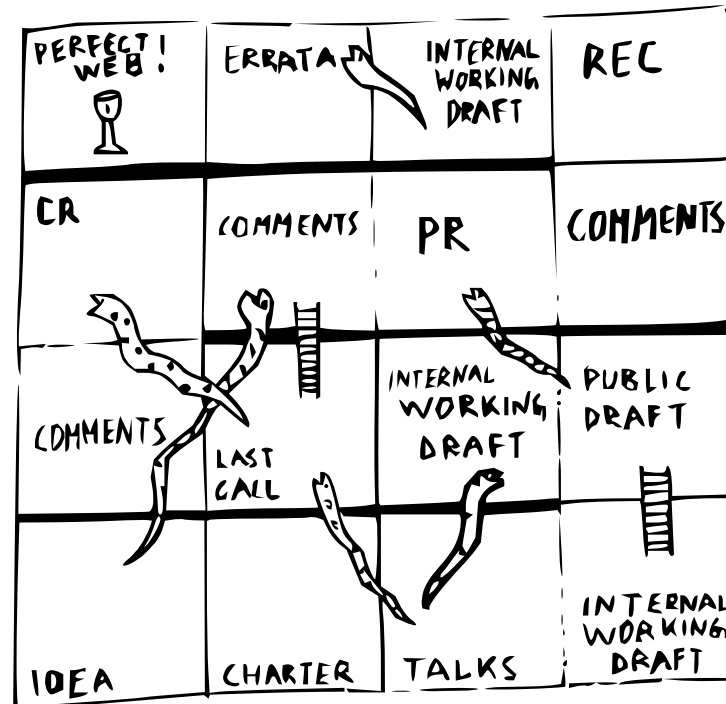

W3C is a forum for users and implementers, as well as a source of information

- Mailing lists
 - one or more for each WG
- Workshops, seminars, tutorials...
- Community & Business Groups[↑]
- Main Web site[↑]
- WebPlatform.org[↑]

STANDARDIZATION PROCESS

W3C SNAKES AND LADDERS WD

WORKING GROUPS, ETC.

- Working Groups
 - HTML WG
 - CSS WG ← *me*
 - XML Core WG
 - ... ±40 more
- Interest Groups
- Coordination Groups

Communications:
mailing lists,
teleconferences,
face-to-face

Technical
Plenary

LIAISONS

IETF, ISO, Open Mobile Alliance, ICTSB/ICTSR (Europe), ETSI, ITU, IDPF, etc.

COPYRIGHTS & PATENTS

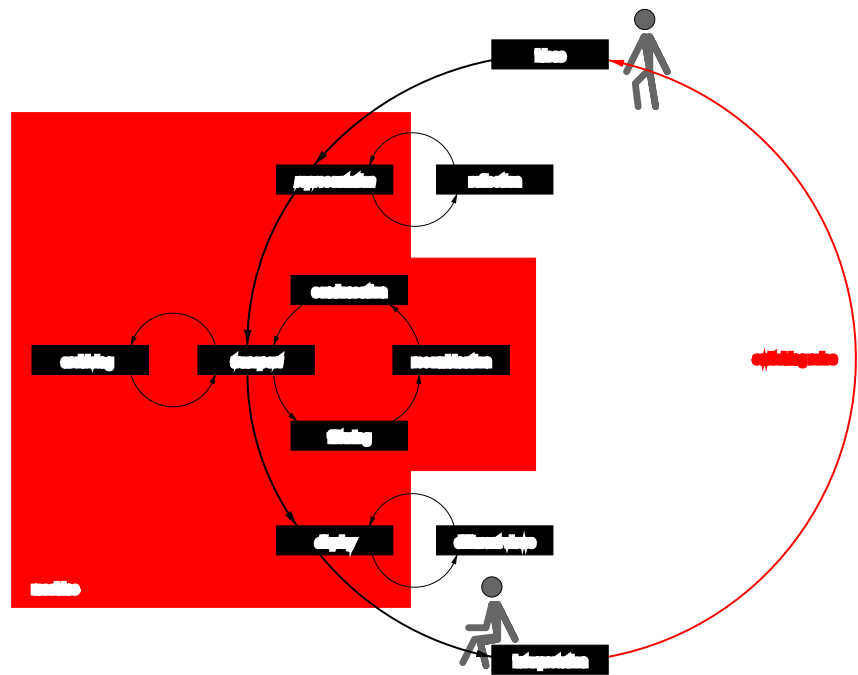

Copyright:

- Specifications – free to copy, not allowed to modify
- Software – **Open Source** (free to copy and modify)

Patents:

- **Royalty Free...**
- ... as far as in our power

GOALS

VISION AND PRINCIPLES

- For all (allly, il8n)
- On everything (devices)
- Semantic Web (re-usable)
- Trust (privacy, security)
- Symmetric (read & write)
- Maintainable, durable, stable
- Modular, extensible
- Easy to learn, to implement
- Efficient, robust
- Backward compatible
- ...

TESTING VS FLEXIBILITY

Many implementations
⇒ difficult to change

No implementations
⇒ not sure the
specification works

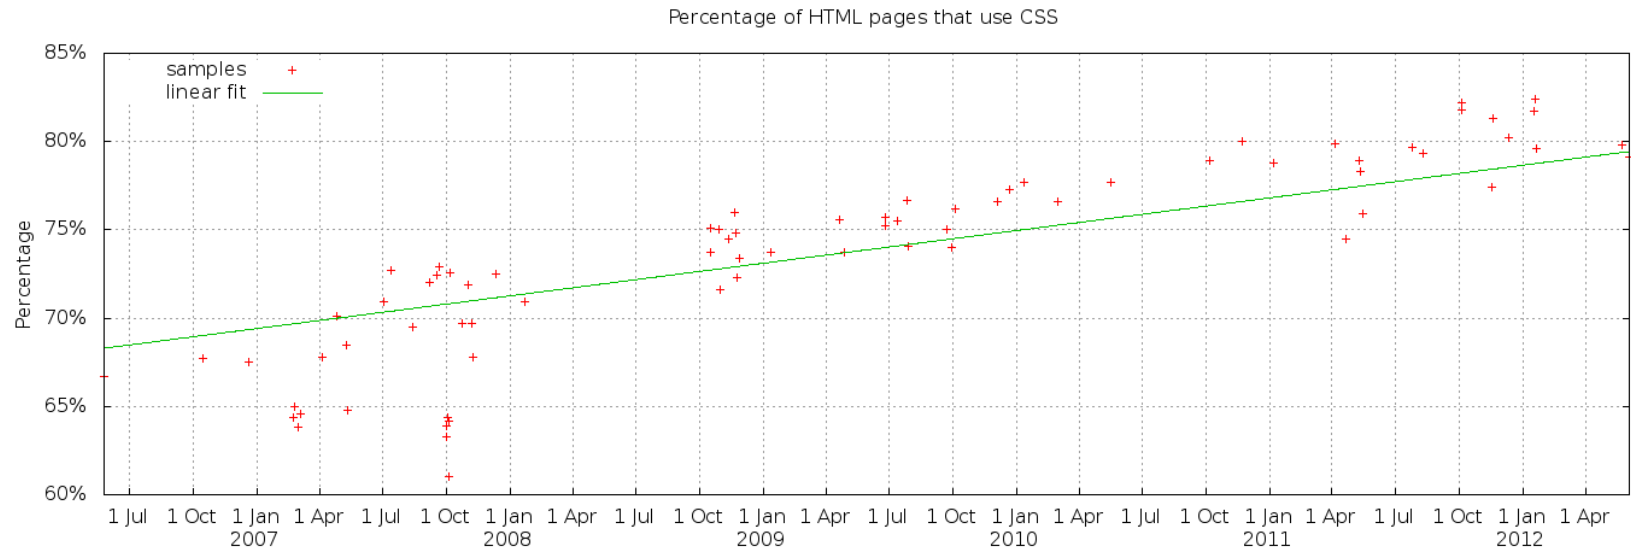

Two implementations

PART 2

Part 2 – About CSS

CSS USAGE GROWTH

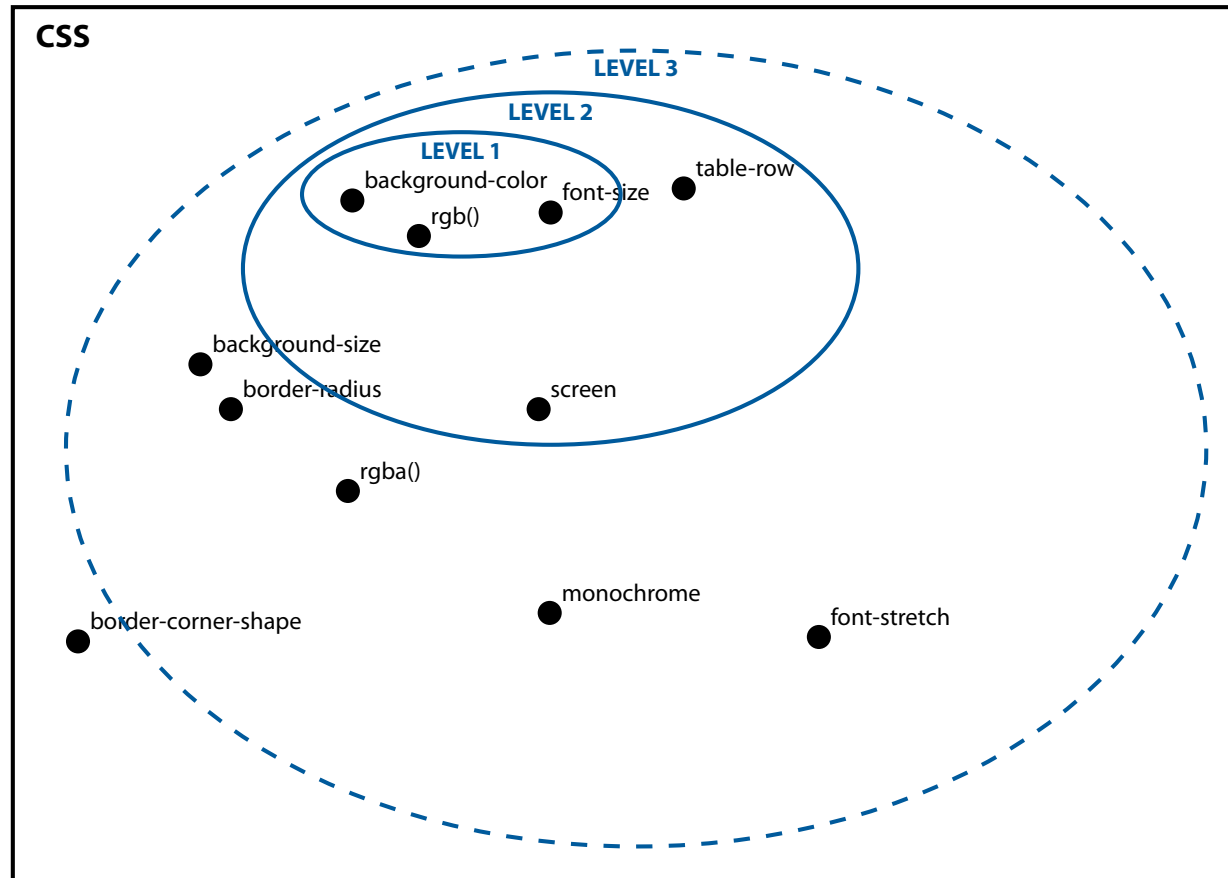

CSS usage has grown from 68% of all Web pages in 2006 to 80% now.

(Error margin unknown. Based on sampling HTML only, no SVG or XML.)

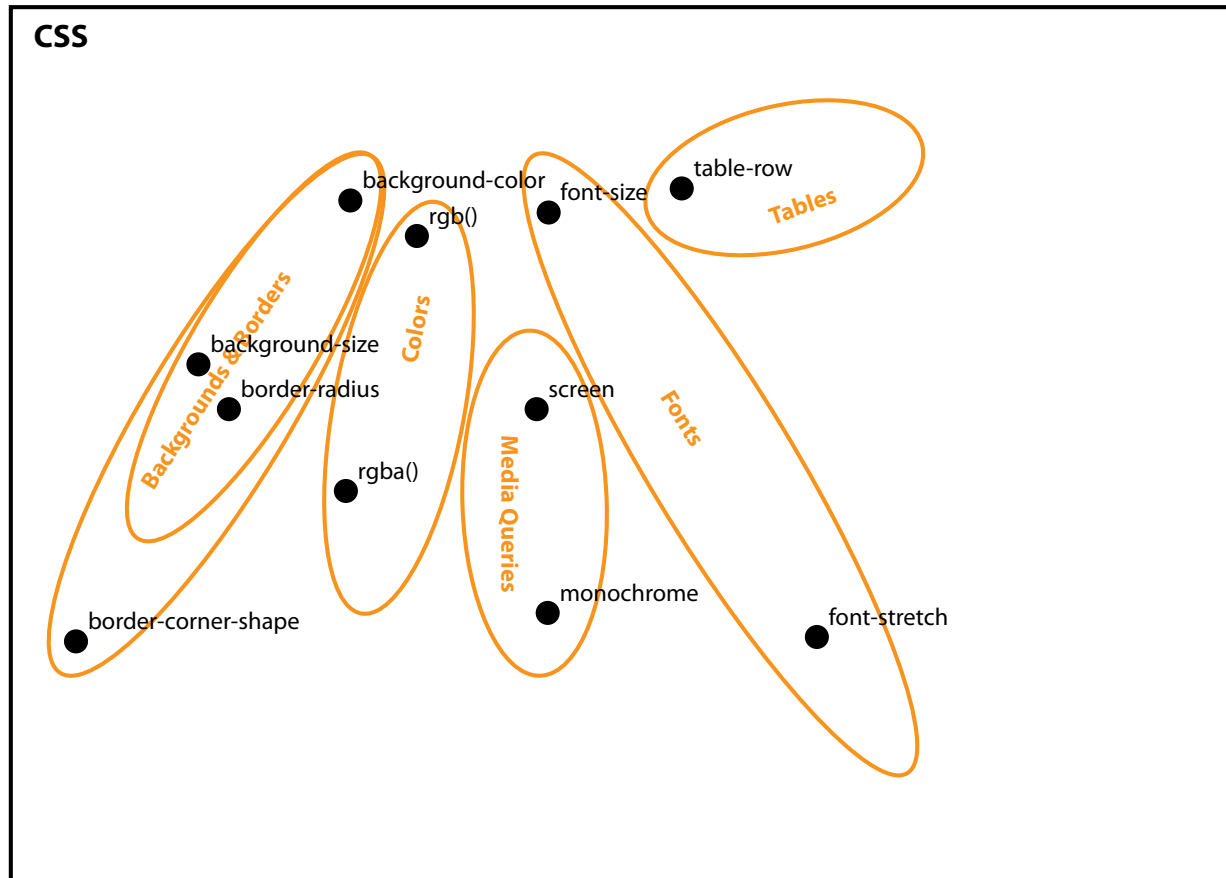

CSS STRUCTURE – FEATURES

CSS STRUCTURE – LEVELS

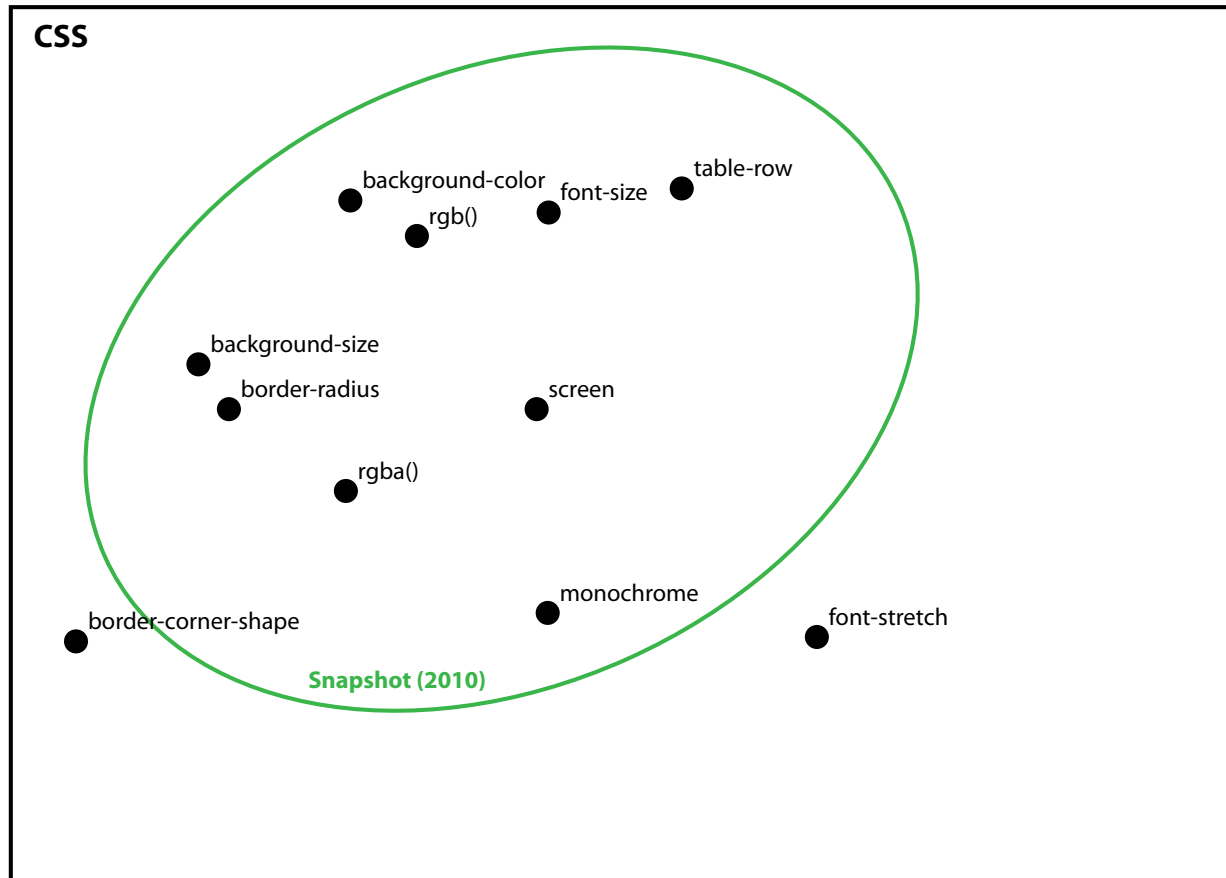

CSS STRUCTURE – MODULES

CSS STRUCTURE – SNAPSHOT I

CSS STRUCTURE – SNAPSHOT 2

2013...

Now we just need a better
name than “Snapshot
2013”...

More info: [CSS current work page](#)[↑] and www-style@w3.org mailing list[↑]

PART 3

Part 3 – Examples of current work

CURRENTLY STABLE

css 2010 snapshot[↑]

css 2007 snapshot[↑]

CSS Level 2

CSS Style Attributes

CSS Namespaces

Selectors Level 3

CSS Color Level 3

Media Queries Level 3

GUIs AND BOOKS

Priorities for next modules mainly come from two types of applications:

- **GUI**
.....
for Web Applications in JavaScript
- **Document**
books/e-books, magazines, documentation...

EXAMPLE I: BACKGROUNDS & BORDERS

Candidate Recommendation, seems stable, but not well tested yet

Demos:

Useful for both documents and GUIs

Multiple backgrounds & background-size↑

Border-radius & box-shadow↑

EXAMPLE 2: MULTI-COLUMN LAYOUT

Candidate Recommendation, works in common cases, but still too many bugs

Mainly for books & magazines

Demo

Two ways to specify columns[↑]

EXAMPLE 3: FLEXIBLE BOX LAYOUT

Candidate Recommendation, only in Opera so far (plus experimental implementations of old drafts)

Mainly GUIs

Demo

Vertical/horizontal, align, flex[↑]

EXAMPLE 4: ANIMATIONS, TRANSFORMS, TRANSITIONS

Working drafts, but expected CR
soon

Mainly GUIs

Demo

This box has an animated background

This box has a
transform (rotation) and
a transition effect (on
hover)

THE END

www.w3.org/Talks/2012/1124-CSS-Moscow[↑]

To Lead the Web to its full potential

To Anticipate the Trends

To Increase your company value
